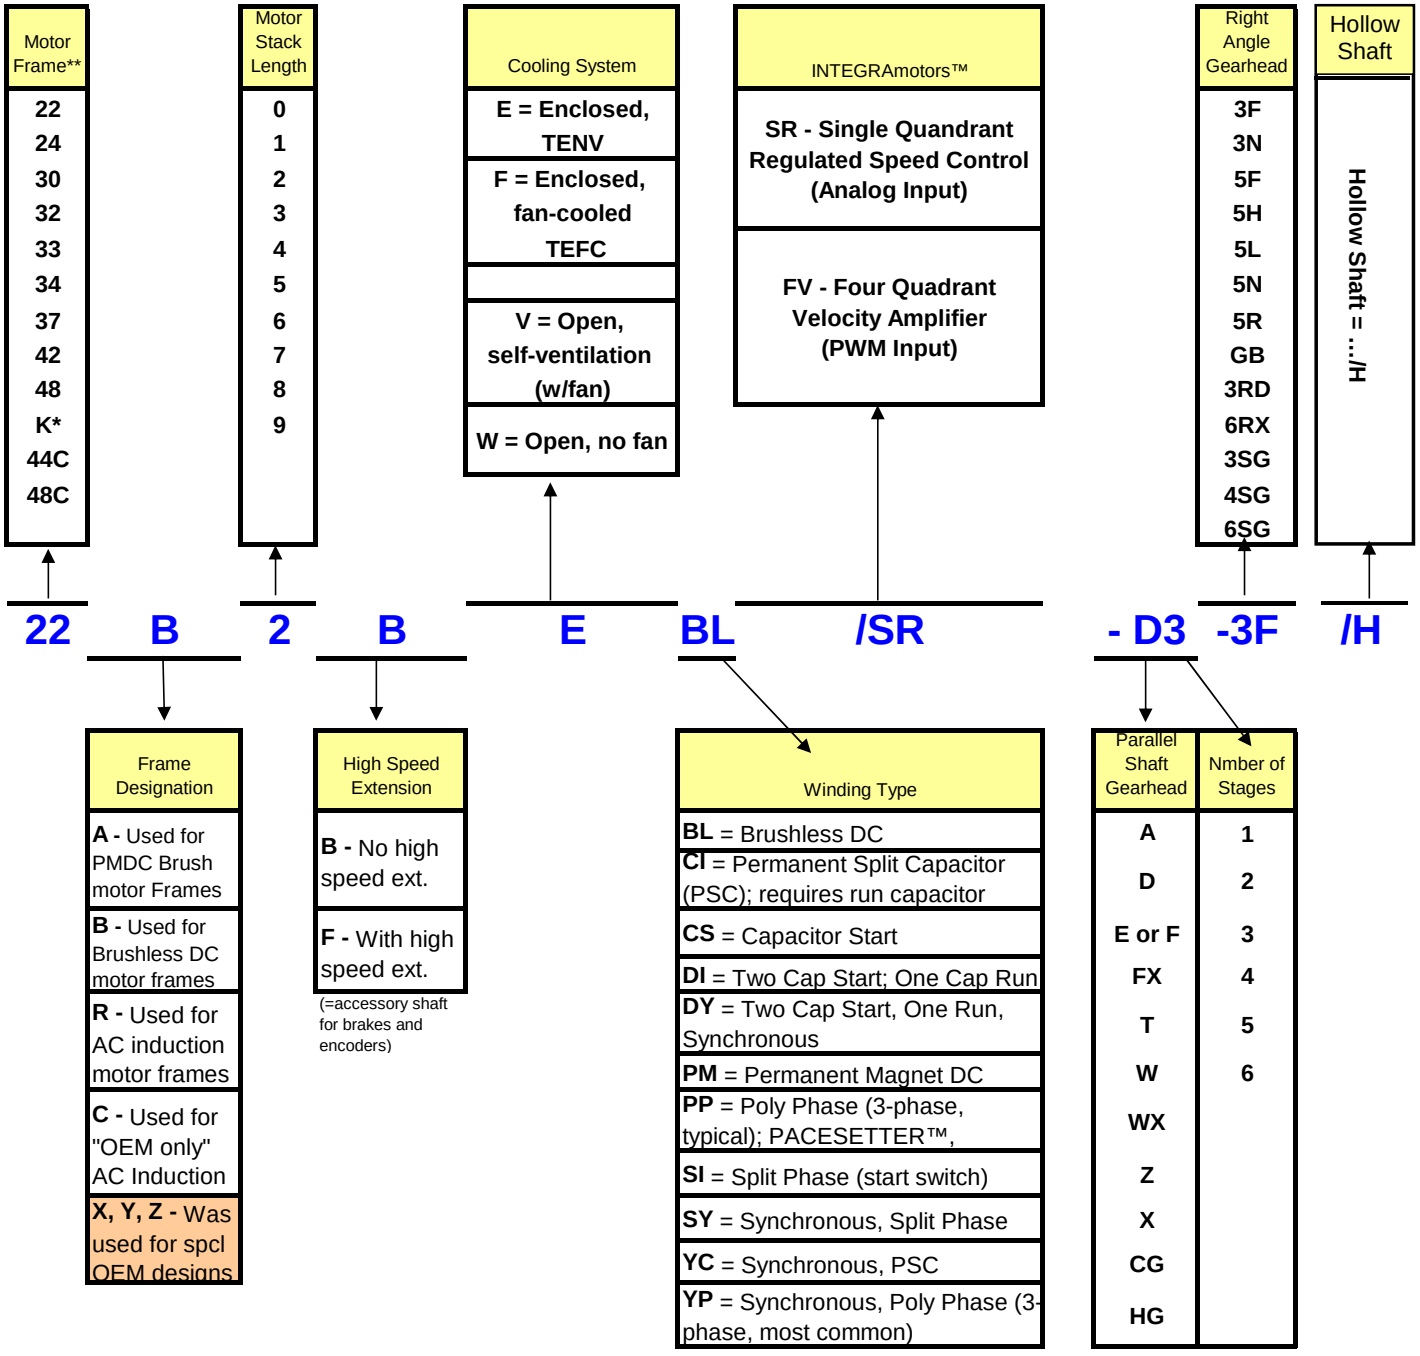
**Bodine "TYPE" Nomenclature for Standard and OEM Motors and Gearmotors**

**Last Update: 04/01/2013 ehg**

BODINE ELECTRIC COMPANY

## Example - TYPE: 22B2BEBL/SR-D3 or -3F/H



*Note: The "K-2" motor type describes the motor frame, winding, stack, and gearhead (e.g. KCI-24A2)

**Note: The "motor frame" designator represents the approx. O.D. of the motor stator or center ring (e.g. "22" ~ 2.2 in.)

**e-TORQ™ nomenclature not listed (contact our Customer Service Team for details. Tel.: 773-478-3515)**
